Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/26/05 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Murakami et al. Murakami discloses a sheet discharging device that includes a sheet discharging unit (22) and a charge eliminating member (7, see col. 12, lines 38-56).

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Bromage. Bromage discloses a sheet discharging apparatus that includes a sheet discharging unit (11); a charge eliminating member (36); a sheet stacking unit that is capable of ascending and descending that includes a tray (29a) and an escape portion (40).

Response to Arguments

5. Applicant's arguments filed 5/26/05 have been fully considered but they are not persuasive.

Art Unit: 3651

6. The applicant states that the charge eliminating member of Murakami et al. is not contactable with an end of a sheet stacked in the sheet stacking unit, nor is it disposed with its tip portion directed along the sheet discharging direction from an upstream side toward the downstream side. The examiner disagrees. The term "contactable" merely requires that the charge eliminating member be capable of contacting a sheet. The charge eliminating member disclosed by Murakami is capable of contacting the end of a sheet. Moreover it is angled from the upstream side of the device to the downstream side of the device.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick H. Mackey whose telephone number is (571) 272-6916. The examiner can normally be reached on Tuesday-Friday 7:00 a.m. - 5:30 p.m..
